Johnson & Johnson | itsmf INFORMATION TECHNOLOGY SENIOR MANAGEMENT FORUM | BDPA | HITEC Hispanic IT Executive Council

Speaker Profiles

Elvie Gee, Johnson & Johnson Diversity & Inclusion
Diversity & Inclusion Spotlight

Elvie Gee provides strategic direction to the internal Diversity & Inclusion networks across Johnson & Johnson globally. Elvie is accountable for the development and implementation of the Employee Resource Group (ERG) and Diversity Council global strategy, governance and framework.

Immediately prior to her current role, Elvie had oversight for the enterprise Diversity Leadership Development Programs focused on the acceleration of our diverse talent globally. As well, she led the diversity survey management strategy with the focus of upholding Johnson and Johnson's reputation as a leader in Diversity & Inclusion.

Elvie holds a Certified Human Resources Professional designation from the HRPA in Canada, is a member of SHRM and speaks three languages (English, Chinese, French).

Christina "CK" Kerley
Keynote Speaker

Powerhouse speaker, futurist, and professor Christina "CK" Kerley pushes Fortune 500s ahead of the curve through the 10+ technologies that will dominate the next 10 years.

Her keynotes have captivated audiences at Verizon, Microsoft, Johnson & Johnson, Amazon, Cisco, Best Buy, and The United Nations. A top-rated faculty member at Rutgers Business School for Executive Education, she has guest lectured at Stanford, Cornell, Carnegie Mellon and Northwestern.

Through her pro bono program—ImpaCKt—she conducts seminars that work to give a leading edge to historically under-served groups. For CK's videos, media, and more, please visit: http://allthingsCK.com

Mike Reilly, Johnson & Johnson Technology Services
Healthcare Technology Products Highlight

Mike Reilly is a Vice President in Johnson & Johnson Technology Services. He leads a dynamic global software engineering team responsible for delivering enterprise services including Health Tech, Digital Marketing, Internet of Things, Sales Force Effectiveness, Advanced Analytics and Business Intelligence. His team builds innovative solutions through a metrics driven software development process with AGILE and user centered design at its core. Mike has over 25 years of experience in organizational strategy, IT innovation and service delivery across a wide array of business verticals. He has extensive knowledge in the field of digital technical systems, emerging technologies, application development and solution delivery of business systems.

Johnson & Johnson | itSMF INFORMATION TECHNOLOGY SENIOR MANAGEMENT FORUM | BDPA | HITEC Hispanic IT Executive Council

Panelists

Tonya Edmonds, Johnson & Johnson Project Management Studio
Panel Moderater

Tonya Edmonds of Johnson & Johnson is a Senior Manager in the Project Management Studio responsible for overseeing the delivery of corporate IT projects within the Finance and Procurement domains. This includes leading the team of internal staff and external consultant project managers, and driving the adoption of project management tools, methodologies and processes within her team. She hails from Hewlett Packard Enterprises, where she was responsible for developing, systems and methodologies, mentoring staff, assessing corporate and government needs and providing cost-saving solutions and strategies.

Andre Arbelaez , Hispanic IT Executive Council
Panelist

Andre Arbelaez is the President of the Hispanic IT Executive Council (HITEC) and is the SVP & Chief Strategy Officer for Softtek USA. Andre joined HITEC in its inception in 2007 and became President in 2011. As President, he brings together CEOs, CIOs, CTOs and VPs of both IT, Talent Acquisition, and Workforce Diversity and Inclusion from Fortune 1000 global companies.

He is a leader in the Hispanic community, focused on the concept of "Pushing Up and Pulling Up" and was named by Latino Leaders magazine as the "Technology Diversity Guru" and ranked in the 101 Most Influential Hispanics list in 2017.

Mike A. Williams, Black Data Processing Associates
Panelist

Mike A. Williams is the President of Black Data Processing Associates (BDPA) and an experienced senior information technology professional. He is social entrepreneur, author and speaker whose personal core values and business interests center around community, leadership, and entrepreneurial empowerment. Williams has leveraged his diverse experience to author two books: *The Advantage Factor*, which was written to help millennials transition from college to corporate America and *Ready To Launch*, a book and training program to educate aspiring small business owners about business ownership.

Viola Maxwell-Thompson, Information Technology Senior Management Forum
Panelist

Viola Maxwell-Thompson is President and CEO of Information Technology Senior Management Forum (ITSMF), a national organization committed to the continuous professional development of black senior-level executives in the technology industry. Ms. Thompson has drawn on her vast experience in program management and career training to transform ITSMF into a professional development organization with the fiscal soundness and infrastructure to prepare the next generation of black technology leaders for the executive suite.

a big **THANK YOU** to:

Guillermo Ardon

Guillermo Ardon is Chief Applications Officer and VP, Information Technology for Johnson & Johnson Services, Inc. He is responsible for defining, building, delivering and supporting the solutions, services and frameworks that address the enterprise IT needs. This includes directing application design, development, process excellence, management of outsourced development centers and support of applications

Larry Jones

With over 25 years of experience at Johnson & Johnson, **Larry Jones** has maintained several IT leadership positions in MD&D, Consumer, and Pharmaceutical sectors. He currently leads another significant business transformation effort for the $20+ billion device company driving significant business value, enterprise capabilities, and business process improvements in R&D, Commercial, Operations and Administrative services.
